Section 1. LPS Concealed Components Witness's and Surge Protective Devices (SPD's) Exclusion Agreement –

* The requested information for this application was discussed and completed to the best of my knowledge and discussed with the General Contractor, Electrical Sub-Contractor and Customer Representative as required to validate as observers for any part or components of the system that was/ were concealed, not limited to any underground metallic bodies such as grounding electrodes, and any other utilities systems for this facility.

* Surge Protective Devices (SPD's) Exclusion Agreement – **NOTE - SURGE PROTECTIVE DEVICES (SPD's) are essential components of the LP system and will not be part of the inspection. Exclusion of such devices was discussed and approved by all responsible parties listed in this application. Excluding these items from inspection will only be acceptable after receiving this written agreement from LPS Installer.
